Blackadder ITC Regular

Estilo da fonte: Regular

Mostrar/ocultar: Mostrar

Designado para: Latim

Categoria: Exibição

Designer/fundidora... International Typeface Corporation

Inserção de fonte: Editável

Ativar o Windows

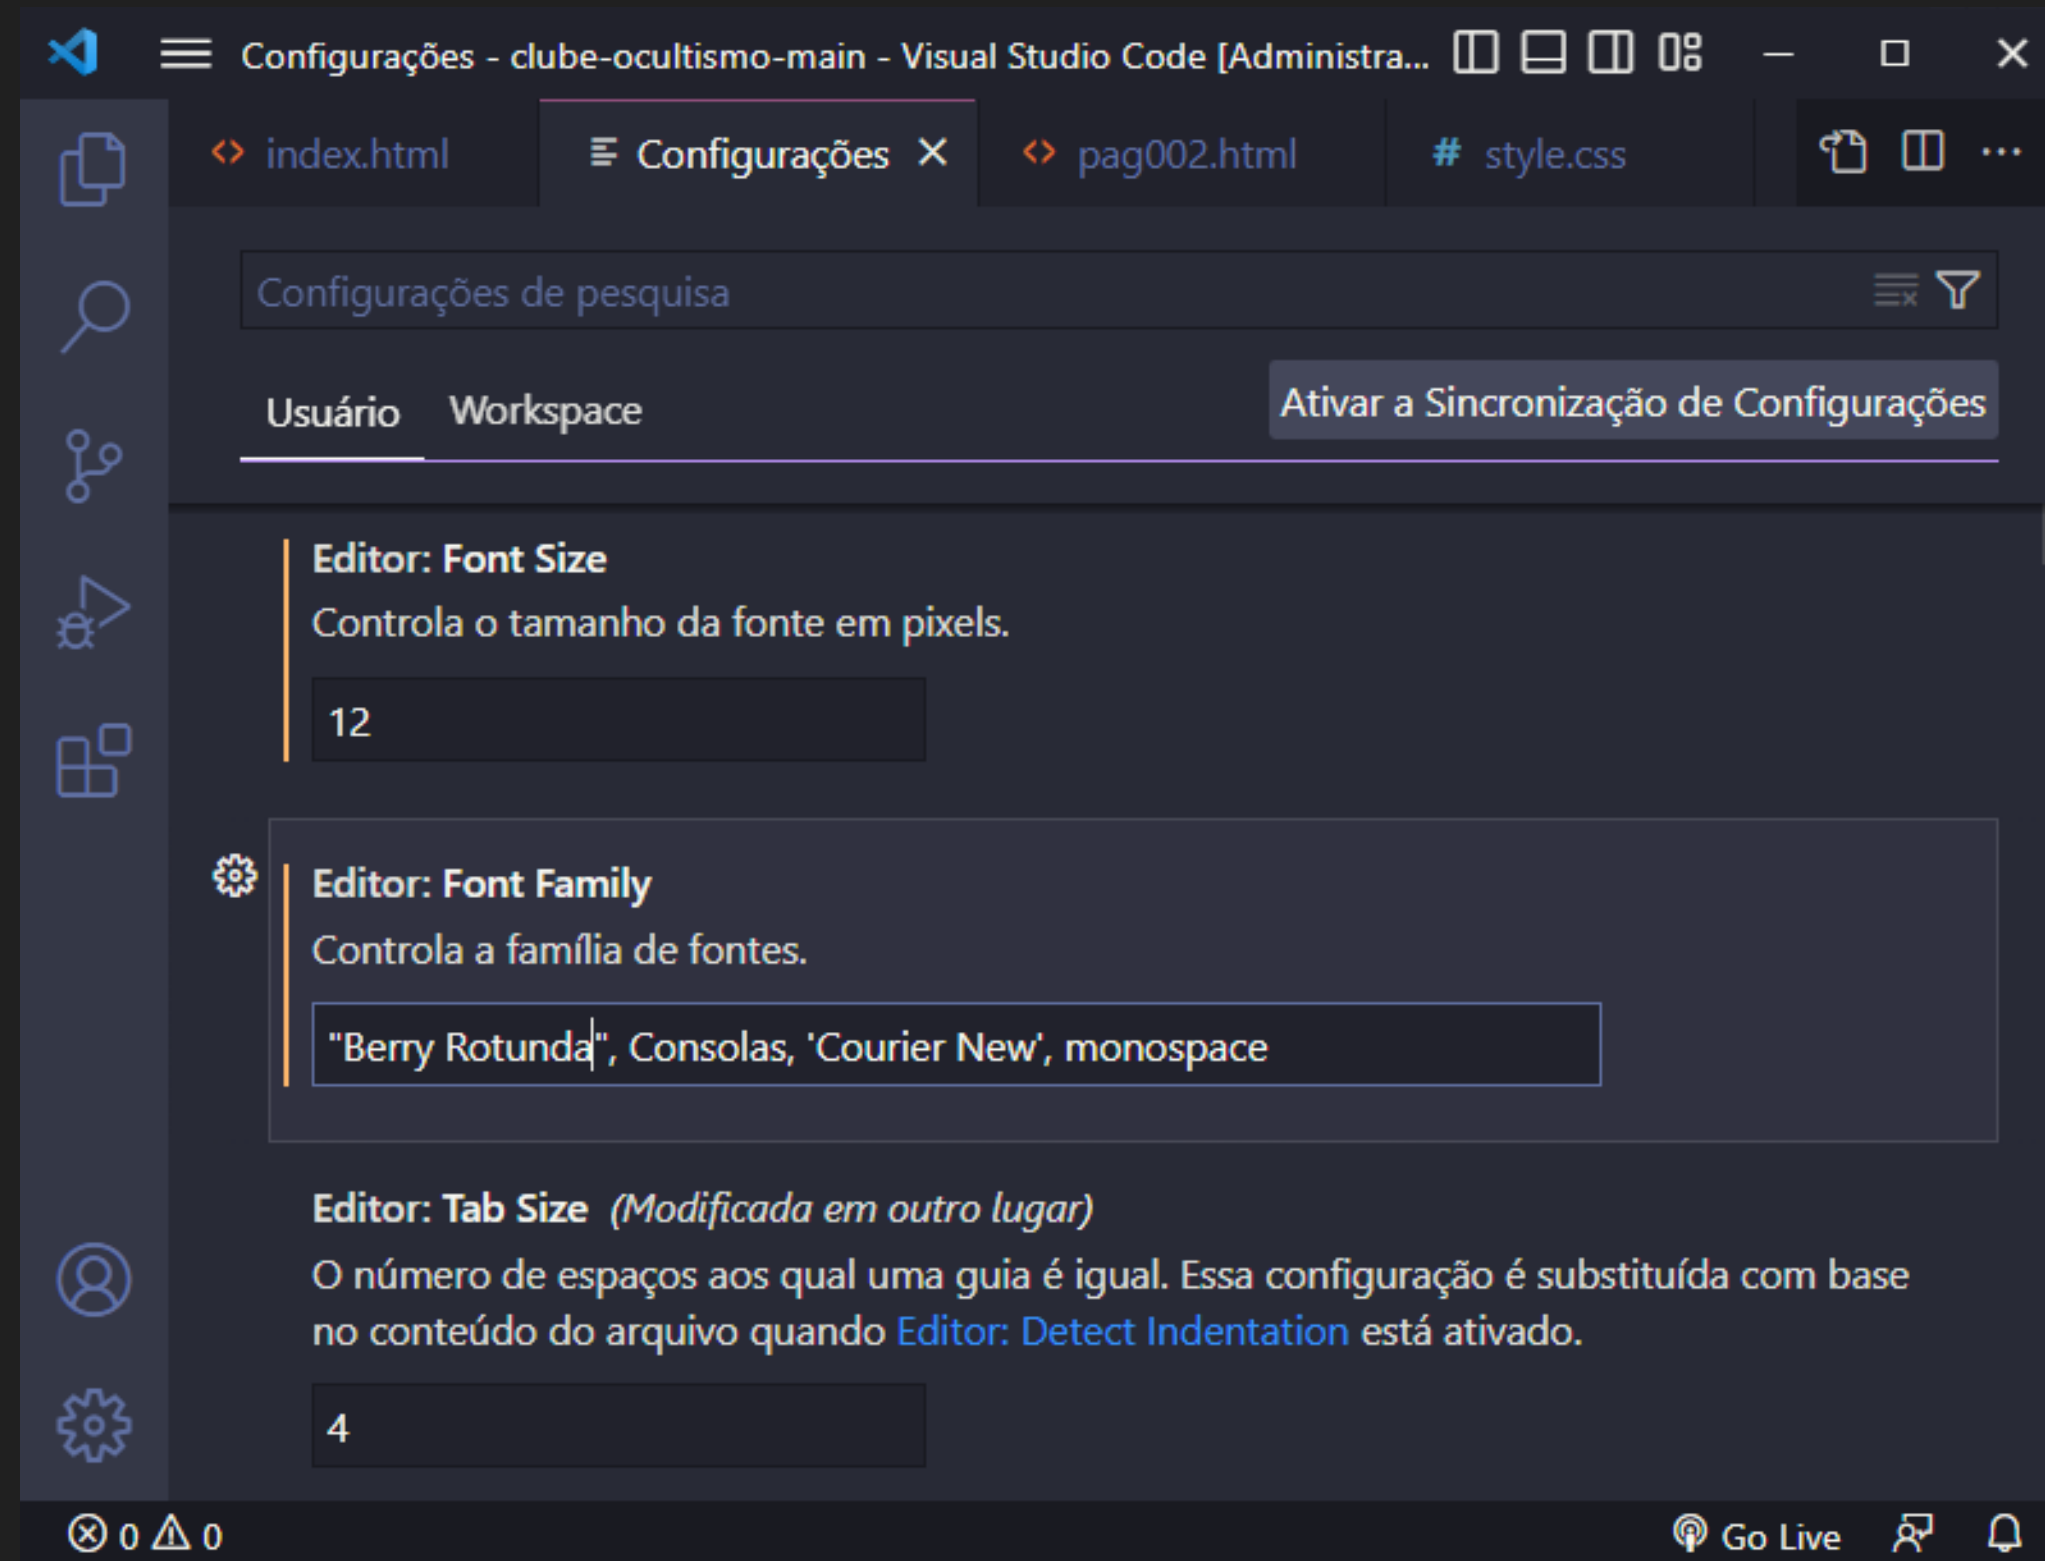

Acesse Configurações para ativar o Windows.

Pronto! A fonte já foi instalada, agora é só
configurar no VS Code

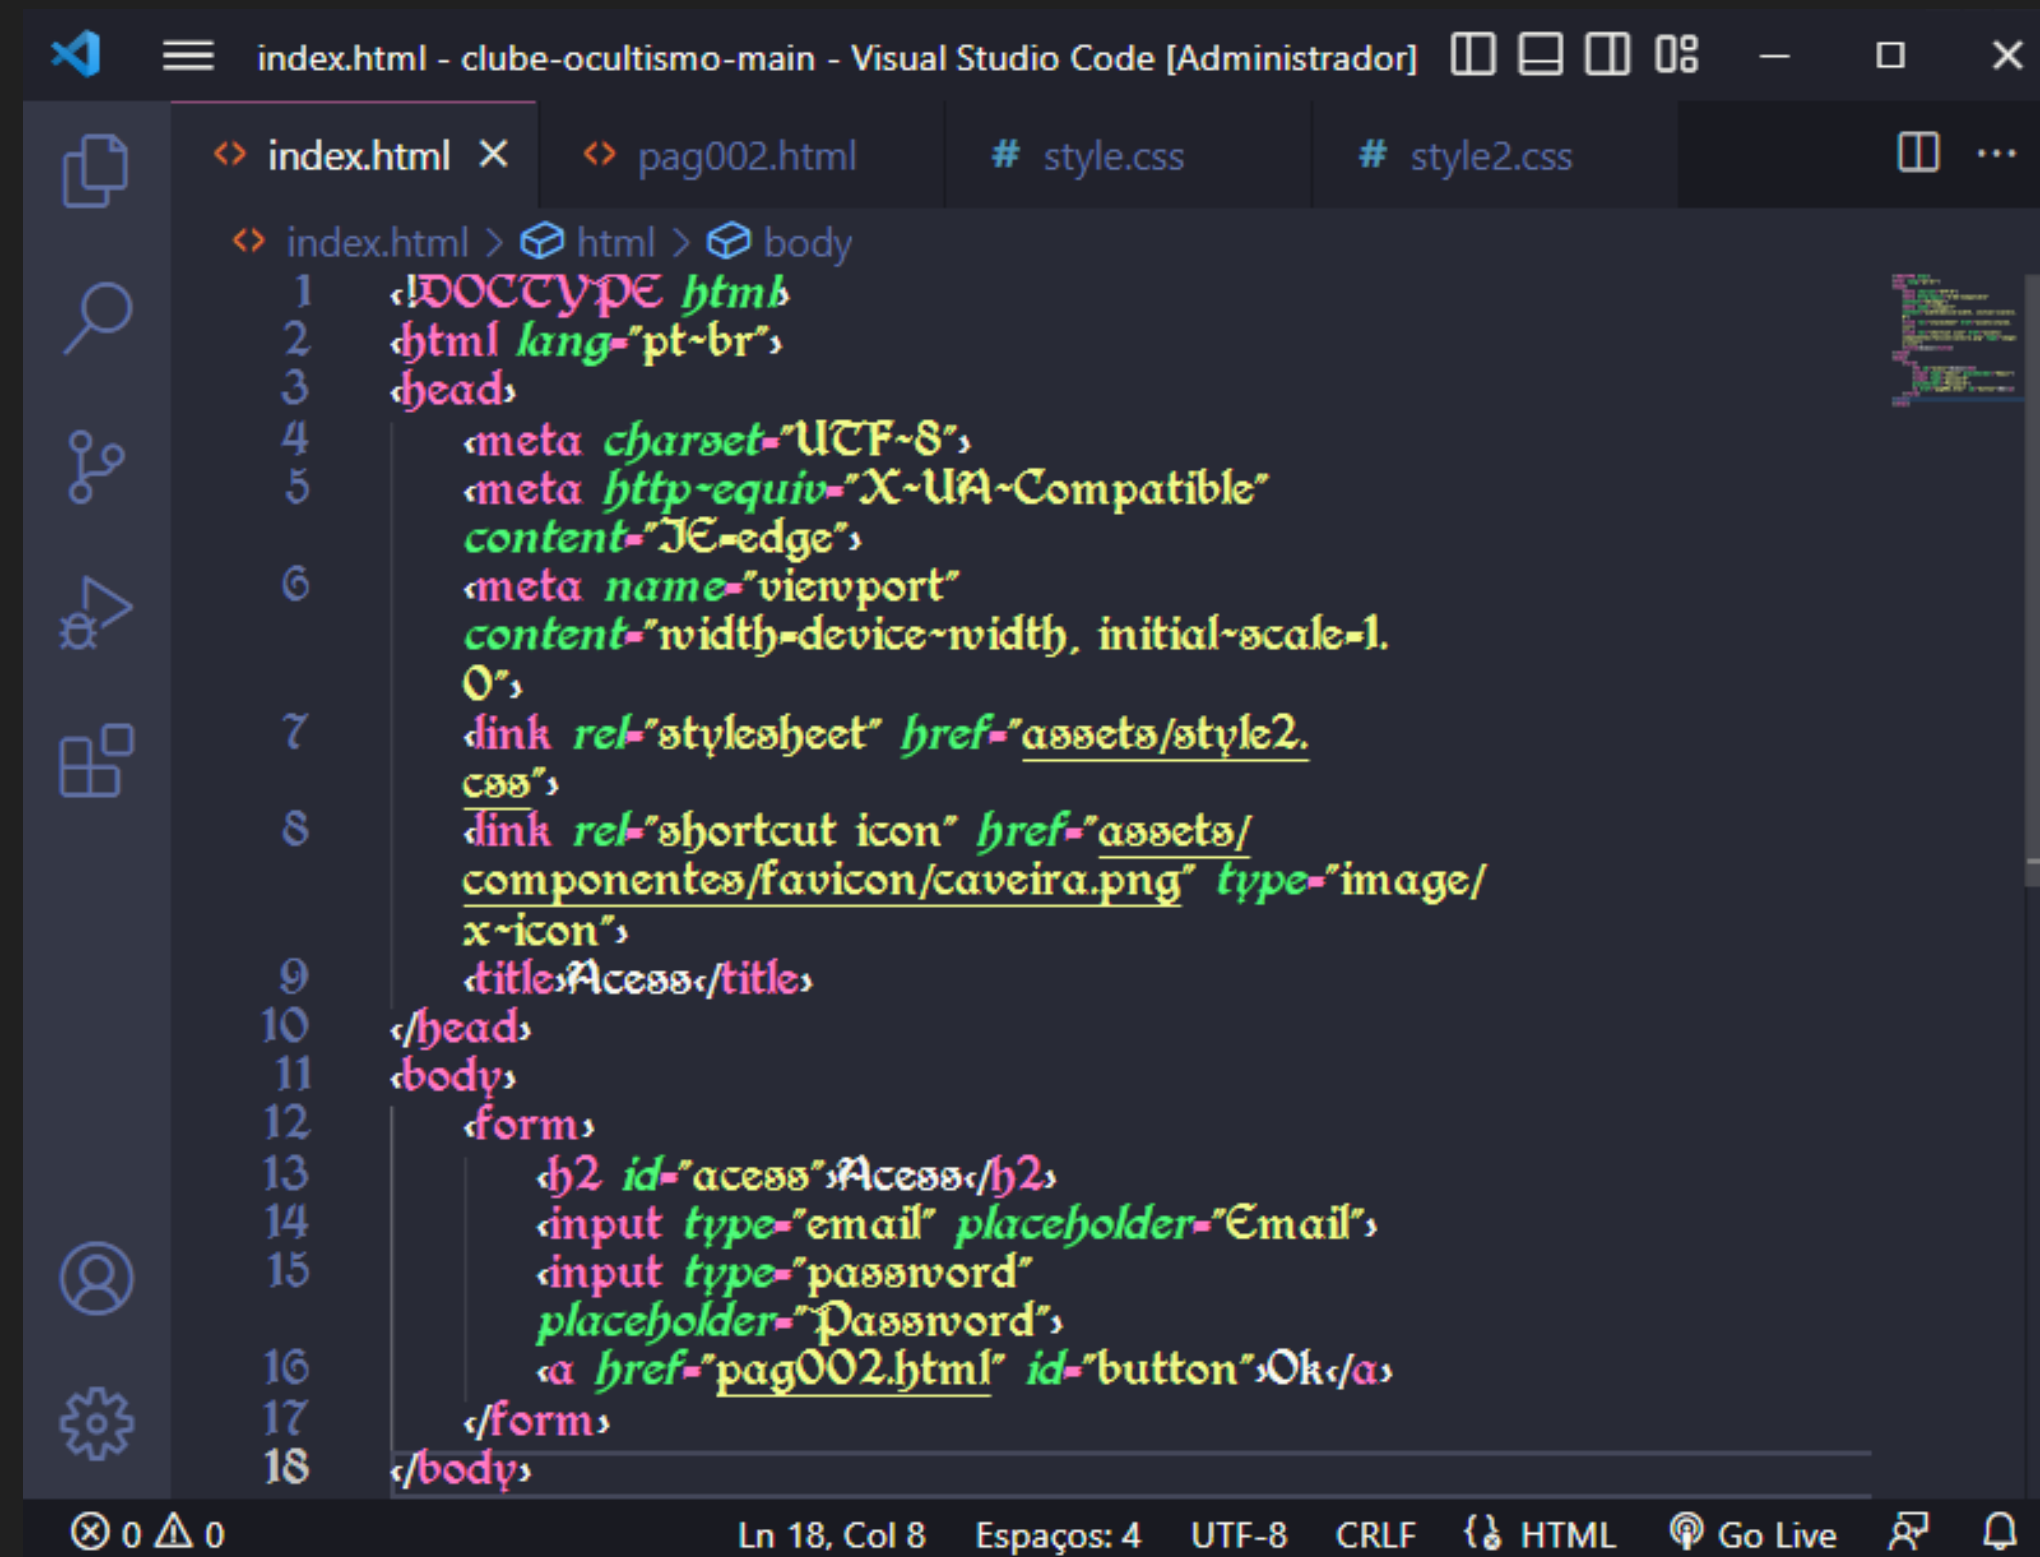

Pressione as teclas Ctrl + , e procure por Editor: Font Family

Coloque aspas antes das outras fontes e digite o nome da fonte que você instalou:

Pressione Enter e depois reinicie o Editor.
Pronto, está tudo feito! Ex.:

```
index.html - clube-ocultismo-main - Visual Studio Code [Administrador]
index.html x pag002.html # style.css # style2.css
index.html > html > body
1 <!DOCTYPE html>
2 <html lang="pt-br">
3 <head>
4   <meta charset="UTF-8">
5   <meta http-equiv="X-UA-Compatible"
6     content="IE=edge">
7   <meta name="viewport"
8     content="width=device-width, initial-scale=1.0">
9   <link rel="stylesheet" href="assets/style2.
10    css">
